

# Job Information for Foreign Students in Korea

## Global Top Tier PM/CM Company 'HanmiGlobal'

Since its foundation through a strategic alliance with Parsons (a global EC & CM company) on June 18th 1996, HanmiGlobal introduced Project Management (PM) in Korea and transformed the way of delivering construction projects to clients from inception to completion and beyond. We have also been at the forefront of improving recognition of the Korean construction industry by leveraging our expertise and empowering our employees to provide differentiated solutions.

In addition, we have entered the global construction market, upholding the reputation of Korean construction firms and striving to become the leading global company.

HanmiGlobal will progress further to being a global PM company

In order to realize the vision of being a global PM company, HanmiGlobal will consider customer value creation as top priority while striving for outstanding results. HanmiGlobal will also further enhance technical competencies to solve the world's complex challenges, and also cultivate the core capabilities as a 'Total Solution Provider'
